

Public Concerns

(Identified at Public Meeting Number 1, June 26, 2008)

Proposed Improvements

Congestion

- Widen Clough Pike with center lane to accommodate left turns (See Alignment Alternatives display)
- Improve Mt. Carmel-Tobasco intersection by separating right, left, and thru movements

Safety

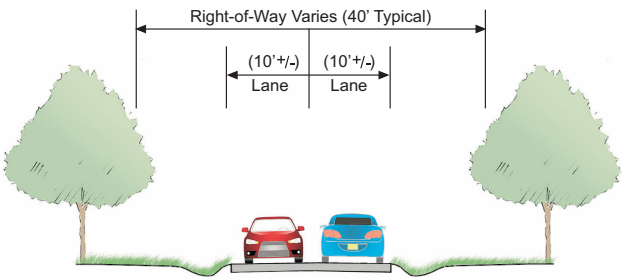

- Add 4' shoulder
- Widen traffic lanes to 12'
- Raise grade at Terrace Drive to improve sight distance

Pedestrian/Bicycle Facilities

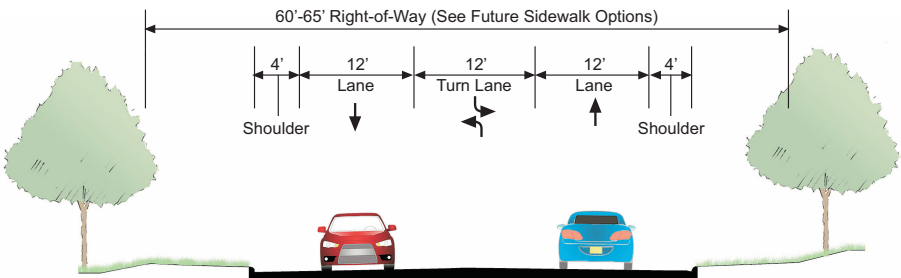

- Provide sufficient right-of-way to accommodate future sidewalk (See Sidewalk Options Display)
- Add 4' shoulder to accommodate bicycles

Drainage

- Provide closed storm sewer system
- Provide curb and gutter
- Remove ditches
- Replace culverts and increase capacity
